

15th of June, 2020

Homework- As this is official the week of the holidays, homework is not obligatory, as I'm aware that all Rental Books are due back [tomorrow](#) with all borrowed library books which I hope you all kindly managed to collect. Try if you can children, to continue on doing some reading during your Summer vacation as one is never lonely when one is reading.

If you want to do some work for me, you can continue on with your Brain Teaser assignments and I will check them for you, but again children there is no pressure on anyone to finish them.

May I compliment you all on the wonderful work that you so diligently and conscientiously submitted on the Seesaw App. You are all a great group of children and it was my privilege to be teaching you this year.

Finally may I wish you, your families immediate and extended, and all your friends and neighbours a safe, healthy and enjoyable break, and Please God that we will all meet again at the beginning of the new academic school year.

God bless and look after each other,

Mrs. Condon.
