Remember to read with your child. Fairytales are great and they encourage your child to use their imaginations. If you have books that your child can read then listen to your child reading aloud and if not while you are reading a story let your child see what you are reading. Follow the words with your finger and ask your child to find words that they would recognise.

Thanking you. If your child is struggling with something then leave it on that day and revisit another day. Remember to keep talking and looking at the analog clock (not digital) and reading the o'clock and maybe half past. Some children will be able to pick up quarter past but it's is not necessary.
